

Platform

The Platform collection by Being is centered on modularity, offering flexible configurations to suit a wide range of environments, including open-plan spaces, breakout areas, and collaborative settings.

The collection consists of four modules: a corner unit with a backrest, a sofa, a bench, and an ottoman. Each piece is lightweight and easy to move, allowing spaces to be quickly adapted as needs change.

Platform can be upholstered in your selection of fabrics or leather.

Custom sizes available on request
