

ROCKS

ROCKS

ROCKS

Rocks is a modular sofa with rational lines, created to adapt to the spaces and needs of contemporary work environments.

Rocks elements can be easily reallocated to create infinite aesthetic and functional combinations, to reorganise a convivial environment, a point of exchange or aggregation like a lounge.

The product design had subsequent phases of simplification to achieve perfect modularity thanks to the 2 main elements: the bench and the joint.

To these are added other complementary modules: an accessorised bench (with i-tech elements or a storage compartment) and a backrest (also available with desk).

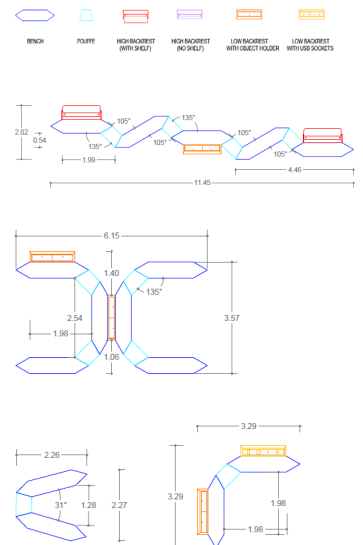

FEATURES

- Made in Italy
- Customisable
- Flexible workspace
- Quick click adjustable feet
- Variety of upholstery options to choose from
- Linking device: Between pouffe and bench junction mechanism with plate, retractile. Between bench and backrest sliding bayonet.

OPTIONS

- Single and double modules
- Bench, Pouffe, High backrest (with or without shelf), and low backrest (with object holder or usb sockets)
